Form PTC-1: Production Tax Credit System Certification
Utah Renewable Energy Systems Tax Credit
Utah State Energy Program

This form must be completed by all taxpayers seeking Utah renewable energy
production tax credits. Form PTC-1 is used to provide the information
necessary to have a renewable energy system certified as eligible
to receive production tax credits. Form PTC-2 is used to claim credits
for electricity produced.

Project Name (see instructions)

If the taxpayer is a business

      Business or Company Legal Name

      dba or Other Name (if applicable)

      Federal Taxpayer ID Number

      Name and Phone Number of person to contact regarding this application

            Name

            Phone

      Is the business a corporation?

If the taxpayer is an individual:

      Taxpayer Name

      Taxpayer Social Security Number

      Additional Taxpayer Name (if filing jointly)

      Additional Taxpayer Social Security Number (if filing jointly)

Taxpayer(s) Primary Address

      City/Town   State   Zip

Phone Number

Location of the Renewable Energy System (must be in Utah)

      Street Address

      City/Town   County   Zip

If the location does not have a street address, provide alternative location information (see instructions)

      Township   Range   Section

      Plat description

      Latitude: Degrees   Minutes   Seconds

      Longitude: Degrees   Minutes   Seconds

The system for which certification is sought uses what type of renewable energy?

      Wind   Geothermal   Biomass

Form PTC-1: Production Tax Credit System Certification
Utah Renewable Energy Systems Tax Credit
Utah State Energy Program

The system produces electricity for (see instructions):

     On-site use   Sale   Both

Estimate of annual kilowatt hours to be produced (see instructions)

Date on which the system entered or is expected to be placed in commercial service (see instructions):

<u>For wind energy systems (see instructions)</u>

Make and model of wind turbine

     Rated net generating capacity

     Number of this type of turbine in the system

Additional turbines, make and model

     Rated net generating capacity
     Number of this type of turbine in the system

Additional turbines, make and model

     Rated net generating capacity
     Number of this type of turbine in the system

Total rated generation capacity of all turbines in the system

<u>For geothermal systems (see instructions)</u>

Make and model of generating turbine

     Turbine is driven by: Dry Steam   Flash Steam   Binary Cycle

     Rated net generating capacity

     Number of this type of turbine in the system

Additional turbines, make and model

     Turbine is driven by: Dry Steam   Flash Steam   Binary Cycle

     Rated net generating capacity

     Number of this type of turbine in the system

Additional turbines, make and model

     Turbine is driven by: Dry Steam   Flash Steam   Binary Cycle

     Rated net generating capacity

     Number of this type of turbine in the system

Total rated generation capacity of all turbines in the geothermal system

          Number of production wells   Depth

          Number of injection wells   Depth

Form PTC-1: Production Tax Credit System Certification
Utah Renewable Energy Systems Tax Credit
Utah State Energy Program

For biomass systems (see instructions)

Provide a brief description of the system for which certification is sought:

Biomass source:

Electricity generation is driven by a:

      Reciprocating motor   Combustion turbine   Steam turbine

          Other (explain):

Make and model of generator or generation system:

      Rated net generating capacity
      Number of this type of generator in the system

      Fuel or energy source driving generator (see instructions):

Make and model of additional generator or generation system:

      Rated net generating capacity

      Number of this type of generator in the system

      Fuel or energy source driving generator (see instructions):

Total rated capacity of all generators in the biomass system

All applicants for renewable energy system investment tax credits are required to submit with this form photographs of key and/or representative components of the system.

Signature

I hereby request certification that the renewable energy system described above is eligible to receive Utah production tax credits. In so doing, I attest that the information contained in this application is correct and true to the best of my knowledge.

Taxpayer   Date

      Title

Additional Taxpayer (if individual joint return)   Date
